Heavy duty

Custom designed KIT regarding more than 25 years of experience in shotblasting.

Comfort KIT-set shot blasting machine HA 1000x1400 for self-installation "in Covid19" situation

CONSTRUCTION AND INSTALLATION ADVANTAGES

FAST, EASY INSTALLATION

- This is a machine **you will be proud to have installed it.**
- **Each KIT includes easy-to-follow instructions, so anyone average handy can do the work.**
- All models can be **put up with just two persons + forklift is needed.**

ZERO „GUESSWORK“ OR WONDERING

- When you install one of our KIT machines, you also **get our process.** We took care of every detail, so your installation team can set the machine up with no surprises.
- Mechanical parts are packed in Siapro and come with **detailed assembly drawing and instructions.**
- We provide **On-line contact and information** to help customers complete the installation in case of any question.
- **All parts are durable, high quality and easy to install.**
- **Machines** are robust, compact, easy for maintenance and economic.

INSTALLATION PROCESS WORK LIKE

“LEGO”.

3 steps are needed to install the Siapro KIT shot blasting machine:

1. Mechanical installation of housing (1), Y monorail (2), elevator (3), air cleaner (4), platform (5).
2. Mechanical installation of filter (6).
3. Electrical connecting (7): Electrification of the machine is already finished, software for the machine is included (already uploaded on the PLC). Joust 4 electrical connectors need to be connected.

After installation: All machines have built-in remote control modem and in case of any problems we offer support or remote assistance.

ECONOMIC ADVANTAGES

- KIT-sets Siapro machines save time and money (advance option for installation by yourself).
- **Choosing price** regarding options.
- Machines are **always on stock, quick delivery.**

SHOTBLASTING ADVANTAGES

- High productive shotblasting E-ECO turbines with E-ECO technology or standard wheels.
- **High efficiency** abrasive cleaners, optional magnetic cleaners.
- Different **type of shielding** to choose.
