

Overhead Conveyor Shotblasting Machines TYPE **H**

Parts can be hanged individually or in a tree on revolving hooks. Spinner hanger machine is ideal for:

- heavy and complex shaped work pieces
- castings
- welded constructions
- forged and pressed parts
- steel parts
- non-ferrous parts
- peening, shotblasting.

Options: Basic - Heavy duty - **Custom made**
 Turbines: **E-ECO and smart run** - Classic
 Environment: Standard - **Atex**

Advantages:

- **E-ECO smart blasting turbines, long life turbine spare parts, CPMT smart equipment**
- **Machines and turbines 100 % produced in EU** with strict European standards
- Manufactured from **heavy steel plate, manganese**, extra wear resistant material
- Very easy to reach **SA3** and specified **RA value**, all work pieces are cleaned completely
- Advanced turbines with proven high cleaning speed, **own development**
- Guaranteed dust emissions below 3 mg/m3 standard, optional under 1 mg/m3
- Communication **connections with PLC, Smartphone, Ipad** optionally
- Latest machine **innovations**: noise protections, security solutions, abrasive collecting areas
- Extra savings with network control and **CPMT process monitoring** smart maintenance.
